

Infant Identification and Security Information

We are delighted to share in the birth of your baby at Beverly Hospital. Our commitment to providing the best care and comfort extends to a wide ranging safety and security program for moms and babies.

Upon admission to the hospital, you will be given important information regarding our infant safety and security program. At that time, the nursing staff will share with you important information and will answer any questions that you may have about our program. In addition, infant identification and security information will be posted in your postpartum room for you to refer to during the course of your stay.

At this time, if you have any questions or concerns, please speak directly with your OB provider or nurse at your next scheduled visit. Thank you for your understanding and cooperation.
