Operating Room Expansion

Quick Facts

Need
• Nearly 6,600 inpatient and outpatient surgeries performed annually
• Minimally invasive equipment improves recovery rates for patients
• Highly-credentialed surgeons practicing the latest proven techniques in community hospital setting

Project Cost

Phases 1 & 2: $1,954,578
Phase 3: $4,243,857
One-time costs: $1,475,125
Total Budget: $7,673,560

Fundraising Goal: $1,000,000
Raised to Date: $327,920

Timeline

Phases 1: January-February, 2010
Office Area Renovations
Phases 2: March-June, 2010
Decontamination Area Renovations
Phase 3: Fall, 2010
Renovation & Fit out of ORs

State-of-the-Art Operating Rooms

Beverly Hospital's Board of Trustees and Senior Leadership have developed a business plan and financial assessment for the expansion of operating rooms at Beverly Hospital. Currently the hospital has seven operating rooms, six of which have not been renovated in 20 years and one that is smaller and reserved for urological procedures. We are building three new state-of-the-art operating rooms.

Three fully outfitted operating rooms are expected to come online in Winter 2011 in anticipation of future growth in surgical procedures given the growing adult population in our service area.

The proposed new operating rooms will boast technically advanced equipment to support minimally invasive surgical procedures, as well as custom-designed technologies that will support our surgical team’s contemporary practice. In addition, the new operating rooms will be larger and have fixed ceiling mounted equipment in an integrated smart room, so that nursing staff will not need to move surgical equipment from room to room. These upgrades will lead to enhanced patient recovery times, efficiency improvements, and will increase capacity for additional and more complex surgical cases at Beverly Hospital. Beverly Hospital currently has 27 top-notch and highly-credentialed surgeons on board, and this physician-centered expansion and new operating rooms will also help to attract additional surgeons of the highest caliber to practice the latest proven techniques and advanced surgical procedures.

How You Can Help

Private donations will play a critical role in the completion of this project. Please join your neighbors in supporting the Operation Room Expansion at Beverly Hospital.

Your tax-deductible donation will help us reach our goal of leading-edge surgery in Beverly!
