

Northeast Hospital Corporation, Inc.

Financial Assistance Policy

Additional Information:

As of October 1, 2016, the hospital will be using an AGB% of 47%

- **The hospital facility uses the look-back method and will not charge any individual who is eligible for assistance under its financial assistance policy for emergency and medically necessary care more than the “amount generally billed” to individuals who have insurance for such care (AGB). For this purpose the AGB is determined using the following method:**
 - **the AGB equals gross charges times the AGB %**
 - **AGB % equals the sum of amount of all emergency and medically necessary care claims allowed over the sum of gross charges for the same claims.**

The hospital will charge any individual who is eligible for assistance under its financial assistance policy for all medically necessary care an amount equal to or less than the AGB for such care. The AGB will be re-evaluated annually. In calculating the AGB %, the hospital will include the following:

- **Medicare fee-for-service**
